Pharmacy Benefits Schedule of Coverage

The following information summarizes the benefits described in your Evidence of Coverage. It is important that you carefully read it so you are aware of plan requirements, provisions and limitations and exclusions.

Sendero prohibits step-therapy for prescription drugs used to treat stage-four advanced metastatic cancer or associated conditions. This prohibition only applies to a FDA-approved drug when its use is consistent with best practices for the treatment of stage-four advanced metastatic cancer or an associated condition and is supported by peer-reviewed, evidence-based literature.

Prescription Drug coverage is subject to change. Any prescription drug that was approved or covered under the plan for a medical condition or mental illness, regardless of whether the drug has been removed from the health benefit plan's drug formulary before the plan renewal date.

Based on State law, advanced written notice to you is required for the following modification that affects Prescription Drug coverage:

1. Removal of a drug from the Drug Formulary;
2. Requirement that you receive prior authorization for a drug;
3. An imposed or altered quantity limit;
4. An imposed step-therapy restriction;
5. Moving a drug to a higher cost-sharing level unless a generic alternative to the drug is available.

Sendero will only make these types of changes to Prescription Drug coverage at renewal of the Contract. We will provide written notice no later than 60 days prior to the effective date of the change.

This section does not prohibit a physician or other health professional who is authorized to prescribe a drug from prescribing a drug that is an alternative to a drug for which continuation of coverage is required under Subsection

(a) if the alternative drug is:

(1) covered under the health benefit plan; and

(2) medically appropriate for the enrollee.

Note: This Consumer Choice Health Benefit Plan does not include all state mandated health insurance benefits. The following benefit is provided at a reduced level from what is mandated:
