

June 2015

Dear Primary Care Provider,

Sendero Health Plans works with Beacon Health Strategies (Beacon) to provide mental health and substance abuse services to Sendero Medicaid, CHIP, and IdealCare members. We want to introduce you to a resource for use when behavioral health care is needed for your patients, the Beacon [PCP Toolkit](#).

As a collaborative healthcare partner, Beacon Health Strategies works with Primary Care Providers (PCPs) through information-sharing and support to ensure they have accurate tools and resources to successfully treat patients with behavioral health conditions.

The PCP toolkit contains –

- **Guidelines for diagnosis and treatment for various behavioral health disorders** including:
 - ADHD,
 - Schizophrenia,
 - Adolescent Depression,
 - Eating Disorders, and
 - many others
- **Member Materials**
- **Screening Tools**

This toolkit is easily accessible by visiting Beacon's website: navigate to www.beaconhealthstrategies.com, hover over "Provider" link, then select PCP Toolkit.

Alternatively, the PCP toolkit can be accessed from Beacon's homepage (hover over the "Provider" tab and click on "PCP toolkit").

We also encourage PCPs to call Beacon at 1-855-371-8095, for assistance with:

- Locating behavioral health providers
- Arranging an appointment in a timely manner
- Getting help making a routine appointment
- Making an urgent appointment
- Checking a member's benefits and eligibility
- Receiving crisis support
- Obtaining information on available behavioral health benefits and services

Sincerely,

Sendero Health Plans and Beacon Health Strategies
